Why Publish?

- What is the meaning of 'To Publish'?
 - To make public the idea, thought, or concept that so far resides in a human brain.
- What is the need to publish?
 - To establish copyright
- What happens when you publish?
 - The idea, thought or concept is made known to the public
 - Copyright is established
 - Other collateral intellectual property rights are established
 - Right to translate
 - Right to assign copyright
 - Right to transform from one form of intellectual property to another

Understanding Plagiarism

- What is the definition of plagiarism?
 - The passing-off of someone else's intellectual property right as your own
- What is the legal side of plagiarism?
 - There is no legal consequence of plagiarizing anyone's work.
- Why then is plagiarism so important?
 - Academic credibility is reduced and the threat of falsified research looms over the entire research project

Understanding Copyright

- What is Copyright?
 - The right to copy any intellectual property AND to profit from such copying
 - The law is man-made and doesn't exist in nature
 - There is no copyright in any art created by anyone except humans
- When is Copyright created?
 - When a creation of the mind is recorded on any media in the living world
- What is the legal implication of Copyright violation?
 - Financial damages, imprisonment where financial damages can't be paid
- What are the losses due to Copyright violation?
 - Damage of reputation
 - Revocation of awards and degrees

Understanding Copyright

- What is a Copyright infringement?
 - The use of another's intellectual property WITHOUT consent, for financial or prestige gain
- How does one avoid a Copyright infringement?
 - By demonstrating that permission from the original copyright owner has been obtained. It has to be in writing.
 - Where permission isn't obtainable (e.g. where a publishing house is no longer in existence) then demonstrate that reasonable efforts have been taken to obtain permission
